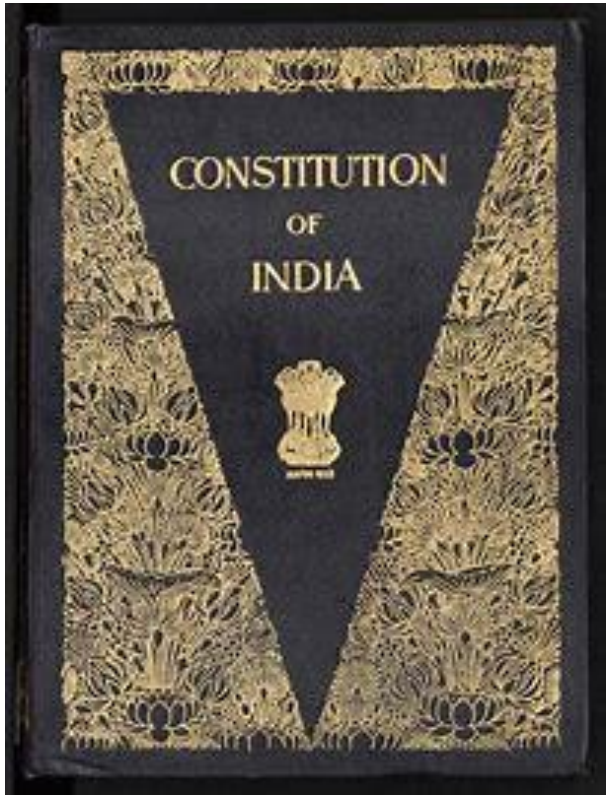
The Constitution as a Basis for Monitoring of Elected Representatives

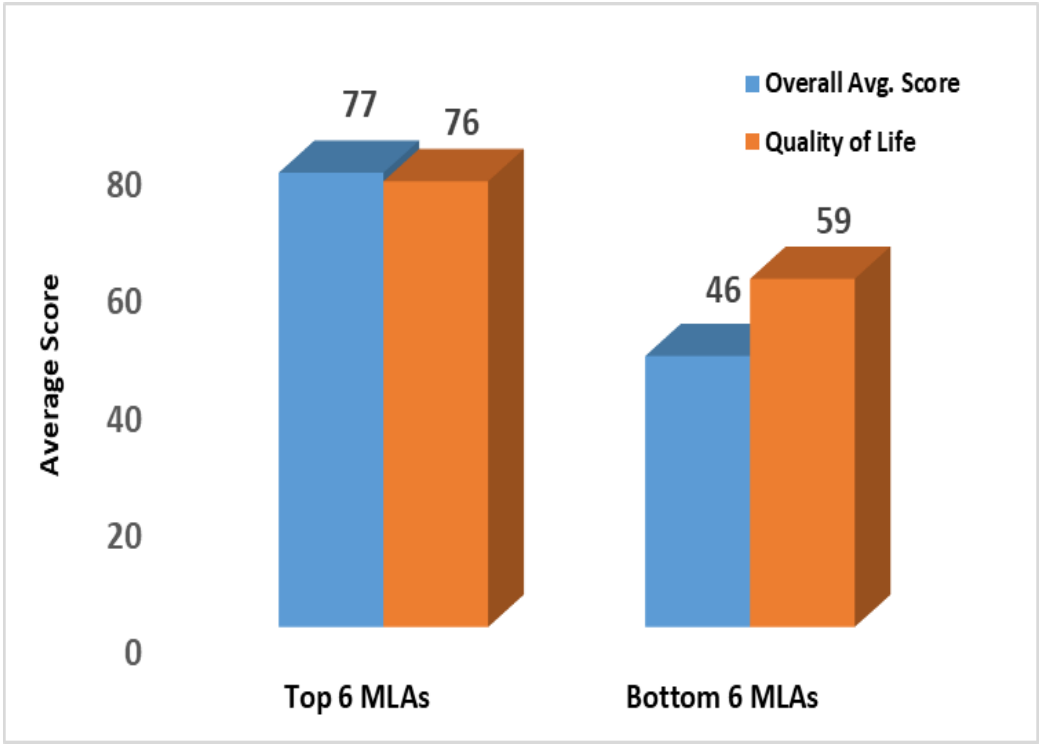


- Elected Representatives derive their powers for functioning through the Constitution.
- They are mandated to Attend Sessions, Raise people's Issues, Debate, Participate in Discussions and Pass legislations.
- The Constitution defines their powers and rules of functioning, hence only the Constitution can provide the parameters for their monitoring.

Change in Report Card Matrix

Rationale for Change:

- Praja released its first Elected Representative report card in 2011 for Mumbai and since then have published 27 report cards in Mumbai and Delhi.
- The initial matrix i.e. till 2019, had two major components - quantitative, based on deliberative duties of the MLAs laid out in the constitution and through legislation and qualitative, based on citizen's perception of ERs performance.
- Over the years, Praja has seen that there is a direct correlation between the deliberative component and citizens' perception as performance of the ERs directly affect the quality of life of constituents which in turn improves citizens' perception.



During COVID-19, it was seen that the duration of sessions declined, thus Praja did not publish annual report cards and instead decided to publish a 'Consolidated Two Years Report Card' this year for the period from Winter Session 2019 to Monsoon Session 2021.
