About Praja

Founded in 1998, Praja is a non-partisan organisation enabling accountability in governance.

Praja empowers citizens to participate in governance by providing knowledge and perspective so that they can become politically active and involved beyond the ballot box. It undertakes extensive research and highlights civic issues to build the awareness of, and mobilise action by the government and elected representatives.

Praja believes that uninformed and disengaged elected representatives and administration, rather than existing systems or policies, are responsible for the lack of good governance.

Additionally, there is a paucity of tools to facilitate effective interaction between citizens and the local government.

Praja conducts data driven research and provides information on civic issues to citizens, media, and government administration and works with elected representatives to identify and address inefficiencies in their work processes, bridge the information gaps, and aid them in taking corrective measures.
