66% had difficulty in affording house rent during lockdown: Survey

City-based NGO Praja Foundation conducted a [survey](#) of 2,087 people across Mumbai to understand how the COVID-19 pandemic impacted them. The survey found that 66% either lost their jobs or their employment avenues were adversely affected. 66% also said that they had difficulty in affording home rent during the lockdown. And 47% said they had to access their savings for household expenses.

The survey also looked at the impact of the lockdown on sectors like health, education, economic and transport services. They found that only 23% prefer to take the public transport now, as opposed to 32% earlier.
